

Firenock Review by Eli Dorsey May 26, 2008
Lightning Nock GSH (LG)

I have been using Firenocks since they came out with excellent success. A few weeks ago I purchased the new "G" series (Lightning Nock LG) with the same results, they work properly every shot, unlike the other major brand that may or may not work. I couldn't be happier with the new "G" series, it is an improvement since I don't have to mess with a magnet anymore.

Great product!!!!
