

Firenock Review by Andrew Thompson August 29, 2008

Firenock GSH (S1)

I have tried the rest, now I have found the best, I have bought and tried Lumenok, Tracers, and Lazer-Eyes. Some worked some didn't, I had problems with all of them though. Since receiving My Firenock it has worked flawlessly EVERY SINGLE TIME. The "G" switch is the only way to go as far as I'm concerned, and there's only one way to get It, Firenock!

They are very bright, well constructed, and the field changeable nock and battery are a HUGE plus.

Congratulations Dorge and Firenock, You have a Winner!!
