# Extreme Shock Battery End Cap for 'E' style Nocks

## GENUINE FIRENOCK ACCESSORY Designed to work with Firenock

With this installed, your Firenock will be able to take extreme punishment like shooting into cinder blocks, rocks, most dried out hard wood, Spiderweb target, Techno-Hunt, small game, or prolonged target practice without circuit to nock separation. These work best with Firenock "E" style inside arrow shafts with a inner diameter of 0.229" - 0.232"\*

### Package Includes

- 1 aluminum installation tool
- 3 red anodized aluminum end caps
- 3 MIL Spec. O-rings

**Note: Gel type super glue or slow set epoxy is needed to successfully install Extreme Shock Battery End Cap. Same size O-ring as Firenock "S" style.**

\* Can fit as small as 0.205" with different O-rings; for more detail please visit us at <http://www.firenock.com/>.

Packaged and Printed in USA with Firenock specifications with parts from USA, China, Korea, Italy, Taiwan and/or Japan.

**SMALL PARTS INSIDE, KEEP OUT OF REACH OF CHILDREN**

**See inside of card for installation manual**
