

2010 Store Shooting Staff Program

We believe that the best way you and your staffs can promote and sell Firenock effectively is that you should have first hand knowledge with the product. For the 2010 Archery Season, we come up with a program that is meant to benefit you, your staffs and Firenock mutually.

For every 12 packs of any style of Firenock you purchased at regular dealer price, you get the 1 pack of the same style/size in bulk. This program is intended to get the product in hands of the people who sell Firenock. So you can use them yourselves and gain experience with them

without spending your dollars. The products you get from this program cannot be resold; violation of this will terminate this program for your shop immediately.

This program does have a limit to how many each person will get in bulk lighted nocks. The limit is set at the number of staffs in the shop multiply by 6. If your shop has 4 staffs including you, you will get a maximum total of 24 free packs base on the product you purchased. In another words, the maximum of free lighted nocks can go to each person is 18 lighted nocks (3 lighted nocks x 6 packs); assuming all

lighted nock purchased were 3 pieces per pack. If all lighted nock purchased is single pack then the total number of free nocks per person will be only 6. Of course this can be a combination. For multiple store shops, please submit a form for each store. For more than 12 staffs, please use a 2nd form and number each form To enroll in this program, please send this form back with names of each shooter, details filled in, signed and dated it so we can use this form to keep track of each shooter's allowance. This program will end by December 31, 2010.
